

# Get Connected Registry

## What is Get Connected?

The **Get Connected** registry is intended for children and adults with sickle cell disease, their families and healthcare providers, as well as advocacy groups, researchers, and people with sickle cell trait. The platform is a way to connect people with sickle cell disease to resources on healthcare, behavioral health, clinical trials, and more.

## Is My Medical Information Safe?

Yes, the platform offers patients a safe way for storing their medical information related to diagnosis and treatment, which should make it easier for patients to navigate through the healthcare system.

## What Can I Use Get Connected For?

**Get Connected** provides patients with access to disease-specific healthcare services and high-quality information about clinical care, research, advocacy and policy issues concerning sickle cell anemia. It is also intended to promote clinical research initiatives on sickle cell disease by getting scientists together with the aim of developing clinical studies based on the needs of sickle cell patients.

## How Do I Register?

Registration is very simple, visit [https://www4.gvtsecure.com/reg\\_scdaa/](https://www4.gvtsecure.com/reg_scdaa/)

# Get Connected Registry
